### **INFORMATIONAL ITEM**

At the same location as the BAR Advisory Group meeting (DCA HQ1, Hearing Room 102), the Department of Food and Agriculture – Division of Measurement Standards (CDFA-DMS) will conduct a public workshop to discuss regulatory concepts related to specifications for automotive transmission fluids. Business and Profession Code, Division 5, Chapter 15 requires that transmission fluids meet the latest automotive manufacturer recommended requirements for all transmissions disclosed on the fluid label.

In response to changes in the marketplace, CDFA-DMS is seeking stakeholder input on issues related to the marketing of transmission fluids and to guide the development of regulations needed to add clarity to enforcements of these requirements.

Bureau of Automotive Repair (BAR) interested parties, BAR Advisory Group members, and the public are encouraged to attend. The workshop will be webcast at the following address:
