INFORMATION ON LAMP ADJUSTER LICENSES

There is only one class of Lamp Adjuster license. If you wish to apply for Lamp and Brake Adjuster licenses at the same time, two applications must be submitted. Brake and Lamp Adjuster licenses may be held independently of each other.

The class is:

Lamp Class A: May test, inspect, adjust, repair, and certify the lighting systems on all vehicles, including motorcycles.

Licensed Adjusters may conduct inspections that are required for the issuance of Lamp Certificates of Adjustment, and also certify that corrections have been made when an enforcement document has been issued for lamp system defects. These licenses are not required to perform general repairs on lighting systems.

NOTE: Technicians must pass an exam every four years to remain licensed. The license expiration dates will be adjusted so that they expire in the month of the technician's birthday. Therefore, the license you receive during the adjustment period will be valid from 37 to 48 months.

IF YOUR APPLICATION IS ACCEPTED, you will be contacted by the examination service contractor to schedule your examination.

You must bring two forms of ID to the examination. One **must** be a photo ID. Read the Candidate Handbook for complete instructions.
