However, the revocations are stayed and Respondent is placed on probation for five (5) years on the following terms and conditions:

1. **Obey All Laws.** During the period of probation, Respondent shall comply with all federal and state statutes, regulations and rules governing all Bureau registrations and licenses held by Respondent.

2. **Posting of Sign.** During the period of suspension, Respondent shall prominently post a sign or signs, provided by the Bureau, indicating the beginning and ending dates of the suspension and indicating the reason for the suspension. The sign or signs shall be conspicuously displayed in a location or locations open to and frequented by customers. 3. **Quarterly Reporting.** During the period of probation, Respondent shall report either by personal appearance or in writing as determined by the Bureau on a schedule set by the Bureau, but no more frequently than once each calendar quarter, on the methods used and success achieved in maintaining compliance with the terms and conditions of probation.

4. **Report Financial Interests.** Respondent shall, within 30 days of the effective date of the decision and within 30 days from the date of any request by the Bureau during the period of probation, report any financial interest which any Respondent or any partners, officers, or owners of any Respondent facility may have in any other business required to be registered pursuant to

Section 9884.6 of the Business and Professions Code.

5. **Access to Examine Vehicles and Records.** Respondent shall provide Bureau representatives unrestricted access to examine all vehicles (including parts) undergoing service, inspection, or repairs, up to and including the point of completion. Respondent shall also provide Bureau representatives unrestricted access to all records pursuant to Bureau laws and regulations.

6. **Tolling of Probation.** If, during probation, Respondent leaves the jurisdiction of California to reside or do business elsewhere or otherwise ceases to do business in the jurisdiction of California, Respondent shall notify the Bureau in writing within 10 days of the dates of departure and return, and of the dates of cessation and resumption of business in California. All provisions of probation other than cost reimbursement requirements, restitution requirements, training requirements, and that Respondent obey all laws, shall be held in abeyance during any period of time of 30 days or more in which Respondent is not residing or engaging in business within the jurisdiction of California. All provisions of probation shall recommence on the effective date of resumption of business in California. 9. **Cost Recovery.** Respondent shall pay the Bureau of Automotive Repair $13,353.59 for the reasonable costs of the investigation and enforcement of case No. 77/20-11295. Respondent shall make payment by check or money order payable to the Bureau of Automotive Repair and shall indicate on the check or money order that it is for cost recovery payment for case No. 77/20-11295. Any order for payment of cost recovery shall remain in effect whether or not probation is tolled. Probation shall not terminate until full cost recovery payment has been made. The Bureau reserves the right to pursue any other lawful measures in collecting on the costs ordered and past due, in addition to taking action based upon the violation of probation.

10. **Completion of Probation.** Upon successful completion of probation, Respondent's affected registration and/or license will be fully restored or issued without restriction, if Respondent meets all current requirements for registration or licensure and has paid all outstanding fees, monetary penalties, or cost recovery owed to the Bureau.

11. **License Surrender.** Following the effective date of a decision that orders a stay of invalidation or revocation, if Respondent ceases business operations or is otherwise unable to satisfy the terms and conditions of probation, Respondent may request that the stay be vacated. Such request shall be made in writing to the Bureau. The Director and the Bureau Chief reserve the right to evaluate the Respondent's request and to exercise discretion whether to grant the request or take any other action deemed appropriate or reasonable under the circumstances. Upon formal granting of the request, the Director will vacate the stay order and carry out the

disciplinary order provided in the decision. Respondent may not petition the Director for reinstatement of the surrendered registration and/or license, or apply for a new registration or license under the jurisdiction of the Bureau at any time before the date of the originally scheduled completion of probation. If Respondent applies to the Bureau for a registration or license at any time after that date, Respondent must meet all current requirements for registration or licensure and pay all outstanding fees or cost recovery owed to the Bureau and left outstanding at the time of surrender.

12. **Actual Suspension.** Automotive Repair Dealer Registration No. 294745 and Smog Check Station License No. RC 294745 issued to Respondent Auto World Auto Service, LLC doing business as Auto World Auto Service, with Ravi Inderjit Singh as a member, are suspended for 15 consecutive days beginning on the effective date of the Decision and Order.

13. Code section 9884.9 states, in pertinent part:

(a) The automotive repair dealer shall give to the customer a written estimated price for labor and parts necessary for a specific job. No work shall be done and no charges shall accrue before authorization to proceed is obtained from the customer. No charge shall be made for work done or parts supplied in excess of the estimated price without the oral or written consent of the customer that shall be obtained at some time after it is determined that the estimated price is insufficient and before the work not estimated is done or the parts not estimated are supplied. Written consent or authorization for an increase in the original estimated price may be provided by electronic mail or facsimile transmission from the customer. The bureau may specify in regulation the procedures to be followed by an automotive repair dealer if an authorization or consent for an increase in the original estimated price is provided by electronic mail or facsimile transmission. If that consent is oral, the dealer shall make a notation on the work order of the date, time, name of person authorizing the additional repairs and telephone number called, if any, together with a specification of the additional parts and labor and the total additional cost, and shall do either of the following:

(1) Make a notation on the invoice of the same facts set forth in the notation on the work order .

(2) Upon completion of the repairs, obtain the customer's signature or initials to an acknowledgment of notice and consent, if there is an oral consent of the customer to additional repairs, in the following language:

(b) The automotive repair dealer shall include with the written estimated price a statement of any automotive repair service that, if required to be done, will be done by someone other than the dealer or his or her employees. No service shall be done by other than the dealer or his or her employees without the consent of the customer, unless the customer cannot reasonably be notified. The dealer shall be responsible, in any case, for any service in the same manner as if the dealer or his or her employees had done the service.

(c) In addition to subdivisions (a) and (b), an automotive repair dealer, when doing auto body or collision repairs, shall provide an itemized written estimate for all parts and labor to the customer. The estimate shall describe labor and parts separately and shall identify each part, indicating whether the replacement part is new, used, rebuilt, or reconditioned. Each crash part shall be identified on the written estimate and the written estimate shall indicate whether the crash part is an original equipment

manufacturer crash part or a nonoriginal equipment manufacturer aftermarket crash part.

(d) A customer may designate another person to authorize work or parts supplied in excess of the estimated price, if the designation is made in writing at the time that the initial authorization to proceed is signed by the customer. The bureau may specify in regulation the form and content of a designation and the procedures to be followed by the automotive repair dealer in recording the designation. For the purposes of this section, a designee shall not be the automotive repair dealer providing repair services or an insurer involved in a claim that includes the motor vehicle being repaired, or an employee or agent or a person acting on behalf of the dealer or insurer. . . .

(16) The center air distribution outlet temperature has been measured and recorded on the final invoice.

COST RECOVERY

21. Code section 125.3 provides, in pertinent part, that a Board may request the administrative law judge to direct a licentiate found to have committed a violation or violations of the licensing act to pay a sum not to exceed the reasonable costs of the investigation and enforcement of the case.

BUREAU INVESTIGATION

22. In and around September 2020, the Bureau received an anonymous complaint against Respondent's facility alleging that Respondent was performing and charging for repairs not needed, charging for labor not performed, and charging for parts not installed on numerous repairs including automotive air conditioning. As a result, the Bureau began an investigation into the complaint and found violations of the Automotive Repair Act (Code section 9880, et seq.) and the Health and Safety Code

UNDERCOVER OPERATION – 1997 Chevrolet

23. In or about the fall of 2020, a Bureau representative prepared and documented a 1997 Chevrolet (1997 Chevrolet) for an undercover operation. After verifying the proper operation of the vehicle as well as the vehicle's air condition (A/C) system, the representative introduced a

malfunction to the vehicle's A/C system that caused the compressor clutch to not engage, which did not allow the A/C to blow cold. The A/C system needed to be evaluated and required splicing the broken ground wire and reinstalling or replacing the existing A/C diode connector in order to make the A/C system fully operable again.

24. On or about September 9, 2020, a Bureau's under cover operator (operator) used an alias and took the Bureau's 1997 Chevrolet to Respondent's facility, Auto World Auto Service. The operator spoke with an employee at Respondent's facility who did not identify himself. The operator told the employee that the 1997 Chevrolet needed an A/C service because it quit blowing cold. The employee informed the operator that the diagnosis would be $45.00 and that he (the employee) would call the operator later that day. The employee did not provided the operator with a written estimate and the operator did not sign a repair order.

25. On or about September 10, 2020, the operator contacted Respondent's facility to follow-up on the diagnosis and spoke with an employee who did not identify himself. The employee informed the operator that he needed an A/C condenser as well as freon to repair the problem and the cost would be $650.00. The operator authorized the repair.

26. Later in the day on September 10, 2020, the operator contacted Respondent's facility to check on the status of the repair and spoke with Ravi Singh. Mr. Singh told the operator that the parts would not be delivered until later that day. Mr. Singh also informed the operator that the 1997 Chevrolet needed a pressure switch for the A/C that would cost an additional $25.00. The operator authorized the repair and Mr. Singh stated the vehicle would be ready the next day. .

27. On or about September 11, 2020, the operator arrived at Respondent's facility to pick up the 1997 Chevrolet and he met with Ravi Singh. Mr. Singh informed the operator that the total cost of the repairs were $730.73. The operator paid cash and received invoice number 36984 with Respondent's business card.

28. On or about October 1, 2020, a Bureau representative re-inspected the 1997 Chevrolet using Respondent's invoice number 36984 for comparison, and concluded the following:

///

///

a. The A/C compressor assembly and A/C high-pressure cutout switch had been replaced. However, the performance of the A/C was inoperative in that the air was not blowing cold.

b. The A/C compressor cycling switch harness connection was not fully connected at the switch, causing the condenser to be inoperable. Once connected, the condenser worked properly.

c. The A/C compressor clutch diode harness had been wrapped with new electrical tape. When unwrapped, the bureau representative discovered the diode connector had been removed from the circuit (a required component to protect the electrical system) and a wire spliced had been performed on the black ground wire of the A/C compressor clutch circuit.
