4 included in a stipulated settlement.

5 FACTUAL SUMMARY

6 30.e California's Smog Check Program requires the owners of most motor vehicles in
7 California to take and pass a Smog Check inspection and receive a Certificate of Compliance
8 every two years when renewing their registration and also when the vehicle's title is transferred.
9 These inspections are performed by Smog Check inspectors at Smog Check Stations, both of
10 which are licensed by the Bureau.

11 31.e The Smog Check inspection in certain Enhanced areas of the state is an Acceleration
12 Simulation Mode (ASM) test performed using an Emission Inspection System (EIS), also known
13 as a BAR 97. This is a computer based five-gas analyzer that measures hydrocarbons, carbon
14 monoxide, oxides of nitrogen, carbon dioxide, and oxygen. The inspection involves a test of the
15 vehicle's tailpipe emissions on a dynamometer. In Basic areas of the state, or depending on a
16 vehicle's configuration (all-wheel drive, traction control issue), a similar test called a Two Speed
17 Idle (TSI) test is performed, but instead of applying a load to the vehicle's drive wheels with a
18 dynamometer, the EIS measures the emissions at idle as well as 2500 revolutions per minute
19 (RPM).

20 32.e The inspector also performs visual and functional tests on the vehicle as outlined in
21 the Smog Check Manual. The visual inspection of the emission control components verifies the
22 required emission control devices are present and properly connected. Functional tests are also
23 performed which, depending on the vehicle, may include checking the ignition timing,
24 malfunction indicator light (MIL), Exhaust Gas Recirculation (EGR) system, a low pressure test
25 of the evaporative emissions controls (LPFET), a visible smoke test, and a pressure test of the gas
26 cap.

27 33.e On March 9, 2015, the Bureau implemented a statewide regulatory change requiring
28 the use of the On Board Diagnostic Inspection System (BAR-OIS) instead of the Emission

1 Inspection System (EIS) for the smog testing of 2000 model year and newer gas powered and
2 1998 and newer diesel vehicles. Most older vehicles require the ASM or TSI test on the EIS.

3 34.e The new BAR-OIS smog inspection uses a Data Acquisition Device (DAD), a
4 computer, a bar code scanner, and printer. The DAD is a scan tool that retrieves data from a
5 vehicle's On Board Diagnostic-generation II (OBD II) computer. The DAD connects the BAR
6 OIS computer to the vehicle's diagnostic link connector (DLC) to retrieve the data from the
7 vehicle. The bar code scanner is used to input technician information, the vehicle identification
8 number (VIN), and DMV renewal information. The printer is used to print Vehicle Inspection
9 Reports.

10 35.e Data retrieved and recorded during a BAR-OIS smog check includes: the eVIN,
11 which is the digitally stored VIN programmed into the vehicle's Powertrain Control Module
12 (PCM); the communication protocol, which is the manufacturer/vehicle's specific "language" the
13 PCM uses to relay information; and the number of Parameter Identifications (PIDs), which is the
14 number of specific data values each PCM uses related to emissions controls.

15 36.e As part of the BAR-OIS smog inspections, the technician also performs a visual and
16 functional test on the vehicle being inspected. The visual inspection of the emission control
17 components verifies the required emission control devices are present and properly connected and
18 a functional test is performed of the malfunction indicator light (MIL). The BAR-OIS software
19 makes the determination whether or not the vehicle passes the inspection based on the results of
20 the OBD, visual and functional tests. If the vehicle passes the inspection a certificate of
21 compliance is issued. The information from the smog inspection is then transmitted to the
22 Vehicle Information Data (VID).

23 37.e The Bureau can access the VID to view test data on smog check inspectionse
24 performed at any Smog Check Station, or search for, retrieve, and print a test record for a
25 particular vehicle which has been tested.

26 38.e The Bureau has become aware of methods some Smog Check stations and Smog
27 Check inspectors use to fraudulently issue smog certificates to vehicles that will not pass a Smog
28

1 Check test on their own, or in some instances, are not even present during the time the test is
2 performed.

3 39.e One method is known as "clean plugging." Clean plugging is the act of using one
4 vehicle's properly functioning OBDII system, or another source, to generate passing data readings
5 or diagnostic information for the purpose or fraudulently issue a smog certificate of compliance to
6 a vehicle that is not in smog compliance and/or not present for testing. The vehicle being tested is
7 not the one being issued the certificate of compliance.e

8 40. The Bureau initiated an investigation of Respondent Walnut Creek Star Smog.e
9 Beginning on or about November 26, 2014 and continuing until about September 24, 2015
10 Respondents² were found to have performed four fraudulent smog inspections using clean-
11e plugging methods. Clean-plugging is the practice of testing one OBD II system (a system that
12 would pass the smog inspection), for the purpose of fraudulently issuing a smog certificate of
13 compliance to another vehicle that would not pass the smog inspection and/or is not present for
14 testing. The vehicle receiving the certificate of compliance is not actually tested during the smog
15 inspection.

16 41.e A Bureau representative reviewed data for four clean plugged vehicles inspected by
17 Respondents Gungor and Iric and certified by Respondent Walnut Creek Star Smog. The data
18 revealed that the four vehicles that were purportedly tested by Respondents were not and could
19 not have been connected to the DAD when they were being certified because the OBD-II data
20 purportedly transmitted by those vehicles could not have been transmitted by those vehicles.

21 42.e Respondents clean plugged and issued fraudulent certificates of compliance to thee
22 following four vehicles:

Respondents fraudulently purported to test the four vehicles, and certified that the four vehicles passed inspection and were in compliance with applicable laws and regulations. In fact, Respondents conducted the inspections on those vehicles using clean-plugging methods.

SECOND CAUSE FOR DISCIPLINE
(Fraud - Registration)

44. Respondent Walnut Creek Star Smog has subjected its registration to discipline under Code section 9884.7, subdivision (a)(4), in that it committed acts which constitute fraud, as set forth above in paragraphs 40-42, above.

THIRD CAUSE FOR DISCIPLINE
(Failure to Comply with the Provisions of the Automotive Repair Act)

45.e Respondent Walnut Creek Star Smog has subjected its registration to discipline under Code section 9884.7, subdivision (a)(6), in that it failed in a material respect to comply with the provisions of this chapter or regulations adopted, as set forth above in paragraphs 40-42, above.

FOURTH CAUSE FOR DISCIPLINE

(Violation of the Motor Vehicle Inspection Program – Smog Check Station License)

46.e Respondent Walnut Creek Star Smog has subjected its station license to discipline under Health and Safety Code sections 44072.10 and 44072.2, subdivisions (a) and (c), in that it violated sections of that Code and applicable regulations, as set forth above in paragraphs 40-42, as follows:

a. **Section 44012:** Respondent Walnut Creek Star Smog failed to ensure that the emission control tests were performed on those vehicles in accordance with procedures prescribed by the department.

b. **Section 44012, subdivision (f):** Respondent Walnut Creek Star Smog failed to perform a visual or functional check of emission control devices on those vehicles in accordance with procedures prescribed by the department.

2 work order by issuing the fraudulent certificates of compliance for the four vehicles.

3 **FIFTH CAUSE FOR DISCIPLINE**
4 **(Dishonesty, Fraud or Deceit – Smog Check Station License)**

5 47.e Respondent Walnut Creek Star Smog subjected its station license to discipline undere
6 Health and Safety Code sections 44072.10 and 44072.2, subdivision (d), in that it committed acts
7 involving dishonesty, fraud or deceit, whereby another was injured by issuing electronic
8 certificates of compliance for vehicles without performing bona fide inspections of the emission
9 control devices and systems on the vehicles, thereby depriving the People of the State of
10 California of the protection afforded by the Motor Vehicle Inspection Program, as set forth above
11 in paragraphs 40-42, above.

12 **SIXTH CAUSE FOR DISCIPLINE**
13 **(Violations of the Motor Vehicle Inspection Program:**
14 **Smog Check Inspector License - Gungor)**

15 48.e Respondent Gungor has subjected his Smog Check Inspector license to disciplinee
16 under Health and Safety Code sections 44072.10 and 44072.2, subdivisions (a) and (c), in that he
17 violated sections of that Code and applicable regulations, as set forth above in paragraphs 40-42,
as follows:
